RAISA LEONZA

Mrs. Leorza,
 You are one of the best teachers I have ever had at Lopez. I have missed you very much in the Spanish Club, but I will always remember the most when I get out of school. I am really looking forward to next year's class and being able to work with you in the Spanish Club.
 Love always,

Mrs. Jerabek, I need . . . Mrs. Jerabek, I can't find . . . Five copies please, Mrs. Jerabek. What would we do without her? Though small in size, she moves swiftly. Not too many people realize that Helen Jerabek arrives at the library around 6:30 A.M. and leaves school after 3:00 P.M. Her job description is vast, with responsibilities not only to students and teachers, but to parents and the Diocese. She also works in conjunction with the public school libraries and county libraries. Mrs. Jerabek has been with Father Lopez for eight years. The only way to say thank you for all the time and effort would be to dedicate this year's *Veritas* to her. So, Mrs. Jerabek, this one's for you.

WE WORK TOO HARD TO LOSE!

The 1979-80 edition of the Green Wave Varsity Football Team rolled to a 7-4 overall record. This included a 22-0 Sunbowl victory over St. Johns. The "Cardiac Kids," as they were affectionately called, came from behind in six of seven wins, keeping fans on the edge of their seats.

Seniors 1979-1980

"Hopefully our players gained from their experience the desire to never give up and to realize that victory is always attainable," said Coach Bobby Pittman. It was a great year on the whole, with many fun times and exciting victories.

Each year these parents completely fund the athletic program. They engaged in many fund raising activities such as Bingo, collecting tickets at basketball games and working at the Spring Festival. They kept sports alive at Father Lopez.

S.G.A. GETS THE JOB D

"She's taking WHAT off?"

The 1979-80 Student Council had a hard but rewarding year. Under the leadership of Mr. Bill McCabe and Wes Dunn, many successful activities took place. These activities included Homecoming, the Magazine Drive, in-school concerts, the charcoal sale, and sponsoring a child from Honduras. They were well organized, keeping all activities running smoothly. Working together, they made each activity fun and rewarding for all.

Under President Bernadette Moser with the assistance of Vice-President Sherry Latta, Treasurer Debby Freeman, and Secretary Suzy Storch, the Pep Club showed us that ole F.L.H.S. really has that school spirit after all. The club sponsored the Homecoming and Sadie Hawkins Dances. They promoted enthusiasm with a spirit bus and a "green and white" dress up day. At all the football and basketball games you could tell exactly where the Pep Club was. If it's not the noise that catches your ear, then it's the confetti flying that catches your eye!

Homecoming "79-80"

The memorable theme of Lopez's 1979-1980 Homecoming was Hawaii . . . Aloha. The Student Council got things rolling with such activities as the egg fight, bonfire, float building, a luau, hat day, crazy sock day, Hawaiian day and shades and braids day. The pep rally aroused everyone for the big game. Friday was the date of the annual parade, and the football game was soon to follow. Fireworks highlighted half-time as did the presentation of the Homecoming King and Queen, Larry Kelly and Lisa Nowviskie. The big Green Wave beat Pierson Taylor by a close score of 17-14.

THE BEST BY FAR

The Varsity Cheerleaders definitely were a number one squad this season. After winning first place at a U.S. Cheerleading Assoc. camp, the squad proved very deserving of their title. They aroused school spirit and boosted the morale of the Varsity Football and Basketball teams. These devoted girls pulled through enthusiastically even in times of defeat.

A change was made this year, the J.V. squad consisted of freshmen and sophomores. After trying out one week prior to the first game, this squad proved to have exceptional effort, spirit and organization. At games and pep rallies they encouraged crowds with their talent.

"Quick Rosie, turn on the sprinklers!"

"All of this just to see over the shower stall."

"They're such cuties!"

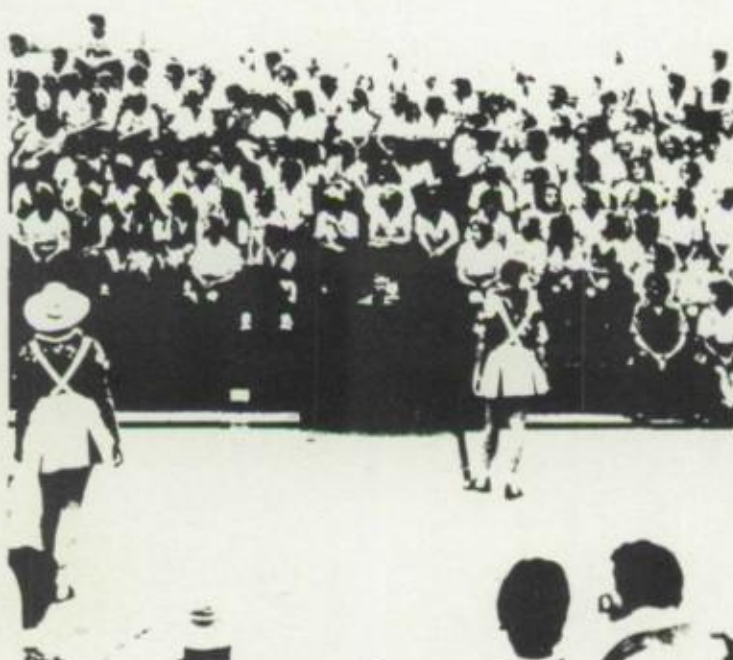

ARE YOU READY?

"Sing it to me sweetly!"

"We have a game tonight and . . . um . . ."

Whip cream pies were the instruments used this year to initiate the new teachers of Father Lopez at the first pep rally. The Varsity Cheerleaders tried with determination to boost morale of the teams and school. From pom pom routines to boy cheerleaders; gold fish to a homecoming bonfire, you could never tell what would be in store for the next week.

Following the Lopez tradition, the 1979-80 volleyball team ended this year's season with a winning record. The enthusiasm illustrated at the games pushed our girls to victory. A new addition to the volleyball program this year was the junior varsity team. It proved to be a step in the right direction, allowing more girls to participate, and to show that Lopez's cup runneth over with talent.

DRESSING UP IS HARD TO DO!

Bullseye!

"What — a freshman and a junior associating?"

Monday morning sorrows.

Seniorly love

Proven fact, "50% study, 50% don't."

Dress up day at Father Lopez is when the real side of people emerge. Every last Tuesday of the month is the day set aside for students to come in their dress up attire. This year a different club sponsored each dress up day. The display of fashion exceeded all possible Vogue aspirations. From clowns to Candies the styles varied tremendously.

\$1.98 BEAUTY CONTEST

The Miss Father Lopez Contest was the epitome of organization this year. Sharon LeFils, Kelley Dunn, and Michele Keough worked together on making this a most successful contest. School activities such as dances and dress-up days and important weeks such as Homecoming are made possible through the Interact Club. Captains of sports and club officers get together to discuss these events and more. Without the Interact Club, Father Lopez would be just another high school.

FABULOUS FALL FACULTY

The philosopher of the faculty, Coach Bobby Pittman has a very complex view of life. On school, he believes, "The future of America lies with the youth of today, and since I was not elected president, teaching is my contribution to my country." He tells students, "Worry

not if no one knows you, only worry if you are worth knowing." Coach Bobby Pittman concludes with the prediction that "The future holds a depression in two years. The only quick way out is war, and, of course, I will have to stay back and protect the women and children."

Our Dean of Students, Coach Bill McCabe has been at Lopez for two years. Coach also teaches a Health class. His philosophy is, "I like to live each day like I'm going to die tomorrow." "There is something special about Lopez,

the uniqueness of this school is in the sense that everyone sticks together through thick and thin." Coach believes in the future of Lopez. "I can see Father Lopez moving in only one direction — up to the top!"

Mr. Robert Dey teaches Algebra and Geometry at Lopez. He is also the Junior Varsity football coach. His philosophy of the future is problem oriented. "For our country I see hard times developing until we can do something positive about inflation, energy, and defense. I think we can have a very bright future." Mr. Dey sees our school in the present and future growing very fast. "Our school will have two problems facing us. One will be inflation (raising enough money to

operate) and the second will mean more construction. Otherwise, I think this school is moving in a very positive direction and has a very long and fruitful future." "The student-teacher relationship at Lopez in most cases is not that different from other schools. I think that the students and teachers who spend more time together whether it be in sports or clubs, respect each other to a higher degree, but I believe this will always be the case at Father Lopez."

Mr. James Gardinier is our business education department at Lopez. He teaches Accounting, Speed-writing and all the typing classes. In the fall, he is the Junior Varsity football coach and in the spring, he coaches baseball. On student-teacher relationships Mr. Gardinier believes, "Students must realize that teachers are not adversaries. Teachers are more like guides, to perhaps show you a better way. Students should be able to see that the assigned tasks will

form a base from which future decisions can be made. Teachers must also strive to learn from the students the most effective way of imparting the knowledge that is possessed." He feels that school should be a constant learning experience. "School should be as such that the flow of learning may not be stopped." Mr. Gardinier's idea of the future is a realistic one. "The future holds great things for those who are ready."

Mrs. Cathy Boyle believes "School is a total experience. Much education takes place outside the classroom in informal conversation. School should prepare students to approach real life confidently." The student-teacher relationship is all important to this English and Journalism teacher. She feels each person should be treated on his merits,

with teachers and students realizing that both entities are capable of error. "Of course, I try to be crazy all the time and keep everybody wondering." Mrs. Boyle believes that in the future, "One day people will look at one another without seeing colors. All mankind will be brothers."

Mrs. Mary Ann Tidmarsh thinks of school as "a learning experience which should be enjoyable through a variety of things." Art, sports, music, and an emphasis on trying to reach everyone, will make up a pleasurable part of the year. Mrs. T. for

short, enjoyed this year with a positive attitude and a good relationship with her students. This English teacher and volleyball coach believes in living life one day at a time and assuming everything will work out fine.

"The primary purpose of school is education," says Mrs. Sharon Belcher, "but education involves more than learning from books." This English teacher believes that the best education is one where the students will learn how to live in the real world. The students will know, "how to apply the knowledge he or she has learned to situations in life and

how to live with others in society." Mrs. Belcher feels a student-teacher relationship "is a special bond, in which each can learn from the other and special friendships can develop." "One thing for certain about the future is change. New ways of doing things will be invented and old ways will be used again."

Mrs. Helen Belanger is a part-time teacher at Lopez. She teaches Reading Comprehension, Creative Writing, and College Skills. In her past teaching experience in English, she has developed a style of simplicity in her philosophy. Her advice on the future is, "Live a lot." Her

philosophy on school, to use a cliché, "It's a nice place to visit, but I would not want to live here!" Mrs. Belanger was undecided about the teacher-student relationship. "It all depends on who the students and teachers are."

Miss Roberta Sexton, affectionately known as "Robbie" by her friends, teaches Algebra I, and Consumer Math at Lopez. She is the Varsity Cheerleaders and Pep Club sponsor. She was born in Key West, Florida and attended Seminole High School. She went on to Seminole Community College and from there to

U.C.F. where she received her teaching degree. Miss Sexton has traveled all over the country and the world. She has lived in Quonset Point, Rhode Island, Sanford and Orlando, Florida, and Naples, Italy. Miss Sexton's hobbies are sewing, crocheting, needlepoint, walking and listening to music.

A new teacher on the block is Ms. Linda Blair, who teaches French and English. Having always loved school, it is her wish to "impart this love of learning to my students as a teacher." On student-teacher relationships she states, "I was once told I was a real 'people' person, and indeed I must be because I enjoy helping students discover the best about

themselves. I enjoy sharing my time with teachers and students both." She feels that the secret to the success of the people of the U.S. is the individual. "In times of crisis, these individuals can become leaders in their fields of expertise. This is because we have the freedom to ascertain our talents and use them to our advantage."

Mrs. Ruthanne Wentz has a very encouraging philosophy. "The future is promising if we remain optimistic. Today's progress in technology and medicine were dreams only ten years ago. Our dreams of today pave our way into the future. Therefore, we must keep optimism in our lives and have faith in the Strength of the Lord." Being an Earth Science and girls' physical education teacher, Mrs.

Wentz finds a good student-teacher relationship valuable. "Relationships are invaluable tools that help in the construction of one's character. Here at Father Lopez, there is a positive student-teacher relationship for those who seek and desire it. Students who develop a good rapport with teachers will learn of its lasting effects and of the memories it has to offer."

The art and foods teacher at Lopez, Mr. Bruce Brady thinks the United States should redeem itself. "There are too many politicians and not enough Statesmen. The United States is a super power and should start acting like one. We need to stop backing down. After that, this country can be what it once was." Mr. Brady believes that quality is important in education. "Lopez is much better than public schools. Education in the state is taking a back seat to other priorities. I see the educational system concentrating on massive education instead of quality education. Science,

math and literature are important, but we need some kind of cultural experience." Mr. Brady, in working with students in extracurricular activities, thinks we have a casual student-teacher relationship. "We have good relations between the students and teachers here at Lopez, although some students and teachers here at Lopez tend to take advantage of it. Teachers here have much more freedom than public schools. They can teach individually, which can help relations. I also believe that most of the students that attend here are interested in quality education."

"Earth Science is really very interesting once you get into it."

"This magazine drive is the same every year."

"He's got the cutest little baby face . . ."

"These teachers' meetings are such fun!"

"Now that's the way it is."

Upon asking Mr. Carlo Ditrack, the new Algebra II, Analysis, and Physics teacher, about his philosophy he responded by saying, "To ask a hypochondriac how he feels or a philosopher for his dreams, may be a mistake." His belief is as follows: "Philosopher Dreams: The future will be no

different for the them of the then, than it is for the us of the now. We all have a past to learn from, our dreams of tomorrow to learn for but have only the now to do it. School should be free for one to come and go and each student must seek out his own teacher."

Miss Cassandra Jerzykowski is this year's Earth Science, Anatomy, Physiology, and Chemistry teacher. She has been extremely active in COR, going on many retreats with students. Her philosophy on the relationship between students and teachers is that, "We're all in this together. If we each care enough about each other, the so called teacher/student 'gap' will be bridged." She feels that,

"Students need to be open to what the teachers are trying to communicate." She believes that this is more than a school, it's a community of teachers and student interrelating in and out of the classroom. "I can't predict the future, but if our future is in the hands of the young adults of the calibre of those at Father Lopez, we're in good hands."

Mr. O'Connell is this year's new psychology teacher and guidance counselor. Born in Montreal, Wisconsin, he has a B.A. in Philosophy, a B.S. in Education and a M.A. in Sociology. His previous positions include being a teacher and principal at a Catholic high school in Chicago and Cleveland. He also was headmaster at Howey Academy. His hobbies include reading, swimming,

music, and sightseeing. He feels that, "the purpose of education is to teach intellectual skills, moral principles, cultural values, and leisure time activities to others to enable them to advance from one level of educational achievement to another until they are sufficiently mature, to independently assume and fulfill their responsibilities to themselves and to society."

Mrs. Raisa Leorza was born in Cuba where she attended the University of Havana. She is the Father Lopez Spanish teacher and being here fifteen years, she is well known by the whole student body. Mrs. Leorza likes Lopez so much because it's a small school and everyone is close. She enjoys being part of the Lopez

community because it reminds her of the high school she attended in Cuba. When Mrs. Leorza is not teaching at Lopez, she enjoys classical music, ballet, sewing and traveling. She runs the candy store at lunch and is a sponsor for the Spanish Club.

Mr. Hunter is this year's World Culture and Social Studies 12 teacher. He was a regional manager for the mayor of a New Jersey newspaper. He composed sales letters for a solar energy company and published public relations articles in regional magazines. He wrote letters and articles for a truck graphics firm, to be published by McGraw Hill's commerce

trade journals. His hobbies are writing and reading science fiction. He likes chess and approaches the theatre as a spectator and participant. When asked about his philosophical opinion on life, the future, and school, Mr. Hunter replied that he's "very open minded about my philosophies."

Mr. Dougherty teaches Theology 10 and 11 and coaches the Varsity Basketball team. He was born in Philadelphia. He received his B.A. from U.C.F. and a Master's from Bowling Green. He feels, "Education is a life-long process which should aid one in his overall development as a person. This is not being confined to

a classroom, rather it is the experience of living." He thinks the student-teacher relationship should be, "one of cooperative and reciprocal learning; it is characterized by one learning from another. Teachers should be a resource person who can guide students to appropriate learning materials."

As our librarian and media specialist, Mrs. Helen Jerabek tries, "to stimulate, guide, and instruct all students to achieve their potential as productive individuals." Mrs. Jerabek is always trying to help students by "providing resources for class-related work, individual research, and recreational pursuits." Her personal philosophy is, "I strive to do the best I can from day to day at home and at work and then to allow the future to take care of

itself." Mrs. Jerabek finds the student-teacher relationship of great importance to the student. The teachers help to develop "the mental, spiritual, social, and physical aspects of each student. The teachers strive to interact with students and parents and with one another, contributing to the attitude and enthusiasm of the school, which we call the Lopez spirit."

Mr. Arcuri is a Father Lopez graduate of 1968. He received his B.A. from Florida Atlantic University and an M.A. from the University of Georgia. He teaches World Politics and American History. Mr. Arcuri sponsors Brain Bowl and the Drama Club. His philosophy on the future can be summed up in the words of Ben Franklin, who said, "We must all hang together now, or assuredly we shall all hang

separately." His philosophy on school is, "I find the rapport between students and teachers today a lot more relaxed than when I was in school." Mr. Arcuri finds this as, "... either a help or a hindrance to the learning process, but when channeled properly, it creates motivation on the part of the student and a desire to help on the part of the teacher."

Sister Christian Marian is the administrative assistant of Father Lopez. She also is the curriculum organizer for the school. Sr. Christine teaches Spanish I and World Culture. Another of her elected duties is keeping the snack machine full. She feels

the school is looking good and confirms this by saying, "On a scale from 1-10 the students and faculty rate a definite 10!" "Hang on," is her advice to everyone in the future.

Ms. Kearney is this year's freshman and sophomore Theology teacher. She feels that, "Each individual has a responsibility to exert a positive influence in the world to bring it to the perfection God has planned." "The future builds on the

present." She feels that, "It's the responsibility of teachers to challenge students to think, reason and judge, as well as to develop systems of study and self-discipline." This is to challenge them to be mature.

Mr. Snyder teaches Theology 11 and 12. He is also our athletic director and coach for the 1980 Girls' Varsity basketball team. Here is what he had to say when we asked him about his philosophy on life: "Eight" from *Tao Te Ching* by Lao-Tsu — The highest good is like water. Water gives life to the ten thousand

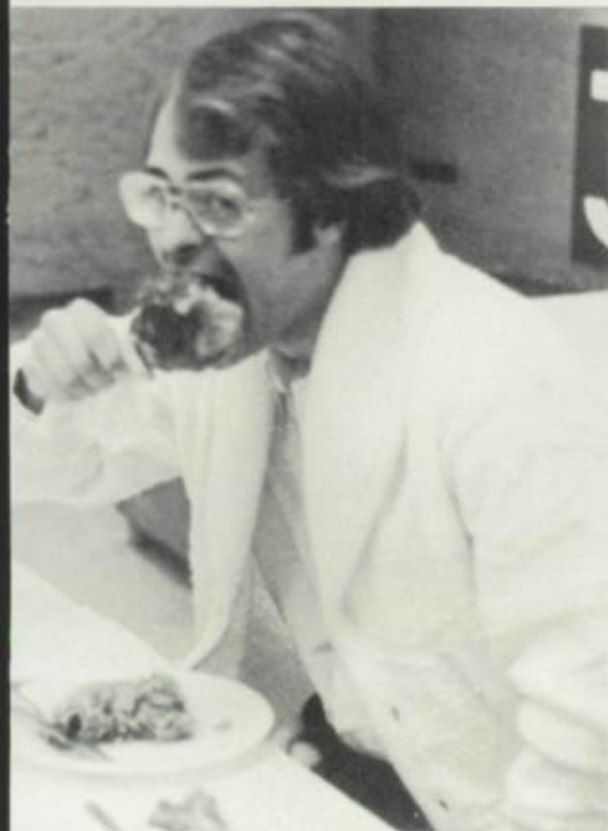

things and does not strive. It flows in places men reject and so like the Tao. In dwelling, be close to the land. In meditation, go deep in the heart. In dealing with others, be gentle and kind. In speech, be true. In ruling, be just. In business, be competent. In action, watch the timing. No fight: No blame.

George S. Husted was born in Fort Worth, Texas, but being a military brat he cannot claim any one place home. He graduated from U.C.F. and is now our Earth Science and Biology teacher. His hobbies are tennis, racquetball, camping,

and jogging. His feelings about education can be summed up as follows: "If I give a man a fish, I feed him for a day. If I teach a man to fish, I feed him for a lifetime."

"Dare me to eat this whole chicken?"

"Our sentinel"

"To know me is to love me."

The 1980 edition of Greenwave Basketball was an exciting one; Coach Dougherty said that it was a rebuilding year for the hoopers, with only two seniors dressing out in green and white. The remainder of the team consisted of some young talented juniors and sophomores. This past season might not have been the best but many are looking forward to the next great season.

The soccer team saw a variety of coaches over the last few years. This year they were led by Coaches J. D. Bing and Ron McGuire. Although their stats were against them, the new recruits persevered. Their record does not reflect the time and effort those guys put into their season. Two of their starting forwards were freshmen, putting a new outlook on their playing. Even practicing only three times a week, they never lost any of their determination.

"Checkmate!" filled the air of the Chess Club matches this year. The club saw some new members and a new sponsor, Mr. Carlo Ditrick. With strategy and skill they engaged in many successful matches under the direction of Chuck Viviano, president. Frequent inter-club matches took place in the library.

"Isn't this exciting!"

The girls' swim team was coached again this year by Ray Santa. With the addition of several outstanding freshmen, the team planned to maintain and further last year's record. Co-captains were Tina Farmer and Janis O'Brien, who have been with the team for several years. There are three girls diving for the team: Sharon LeFils and Jane Bouchard returning from last year; and Megan Smith, a new addition to the team.

SPLASH!

The boys' swim team is also headed by Coach Ray Santa for the second year. Richard Dillard is captain and the only senior on the team. Although there were few replacements for the departed seniors, the boys clearly expect to improve the record from last year. Both teams are looking forward to a repeat performance of the trip to Tampa and participation in the Clearwater Invitational. Obviously, Coach Santa is looking forward to boosting both teams to winners this season.

Without a doubt, "class" was the theme of the 1979-1980 Junior-Senior prom held May 9. The Casements in Ormond Beach, the Old Rockefeller mansion, provided a beautiful setting for an evening filled with fun. Many couples attended and will have fond memories of the night for years to come. The Junior class, under John Dylewski, made "A Touch of Class" a big success for seniors.

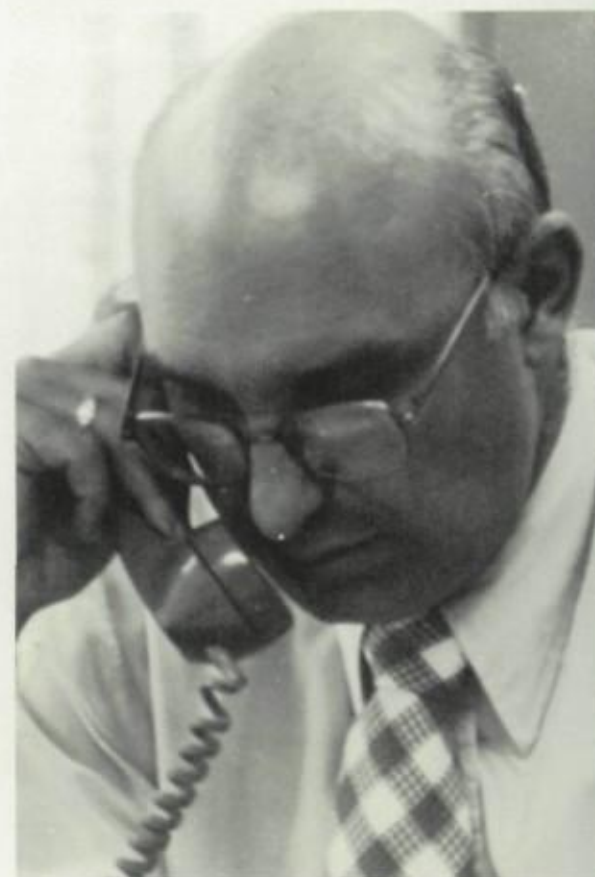

"I can hold this smile for about three more seconds!"

SENSATIONAL SPRING FACULTY

Mr. Pistana comes to Lopez from Brooklyn, New York. He attended the University of Dayton where he graduated cum laude with a B.A. in religious education from Fordham University. Mr. Pistana is married and has three children. His hobbies include his family activities, sports, and reading. When asked about his philosophy on life, he commented, "It's a great life if you don't weaken." In regard to the future he says, "If the kids at Lopez are any indication, we have a great future ahead of us!" "Education is the best way to keep options open."

Father Michael Hogan is Lopez's school pastor and religious leader. When asked about his role in the spiritual development of the school, Father Hogan responds, "Life is an endless series of possibilities of varying importance. One should not regard every choice or decision as an either-or situation." "God absolutely cares for us and yet at the same time completely allows us to be and to become. Because of his concern we need not be afraid to embrace the many opportunities for growth and grace he will place before us. The future is bright." "Lopez education has the ring of truth about it and the 'truth shall set you free'."

Sister Miriam divides her days at Father Lopez between working in the library and taking care of the records in the guidance office. As one of the few remaining nuns on campus, she dedicated herself not to the school, but to the people in it. Her philosophy is

that she tries, "to recognize the dignity and worth of all students so that I'll be of service to them in their development spiritually, emotionally and intellectually, according to their God given capabilities."

Mrs. Mary Truscott has a pragmatic philosophy about school life, "after 21 years who wouldn't?" Within the school she has seen changes that have molded the school: some good

and others not so good. Still she likes today and looks forward to tomorrow. Humor is very important to her acceptance of life and the world.

Mrs. Champagne has long been a major part of the school administration. As bookkeeper she has a tedious job, especially with as many accounts as she has to handle; so she has to have an

easy-going philosophy. Light-heartedly she says, "Live and let live!" She enjoys school life, especially her friendship with Mrs. Truscott!

Roosevelt Wilmore has come to be a friend of everyone on campus. He incorporates many duties, including the hazardous job of controlling the angry mob at the lunch line, into a system that often helps keep the school

running smoothly. Rosie offers a helping hand in virtually every aspect of school administration. Rosie will be overlooking the new construction going on at Lopez in the future.

"When are we gonna put in artificial turf?"

"I wonder if I look as bored as I feel!"

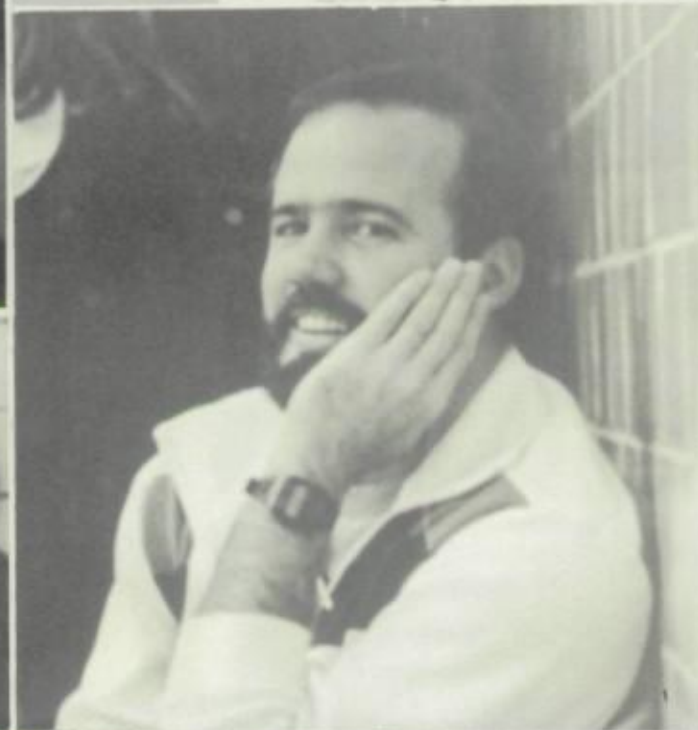

"Hey . . . I'm entitled to this popcorn!"

"The key to the forbidden chamber."

"Ain't it the truth though?"

A lot of time and effort went into the production of the 1979-1980 *Veritas*. The yearbook required devotion, patience, creativity, and giving up several Saturdays from all the staff members. Due to financial difficulties and deadline threats we were all ready for the 1400 ward by the time the book was sent to the printers. Under the supervision of Cathy Boyle and the guidance of Tina Farmer, our hard work was repaid through the pleasure

"Check 'em out, why?"

derived from the Yearbook creation. Best of all we were able to stay friends until the very end.

LET'S GET TUBED!

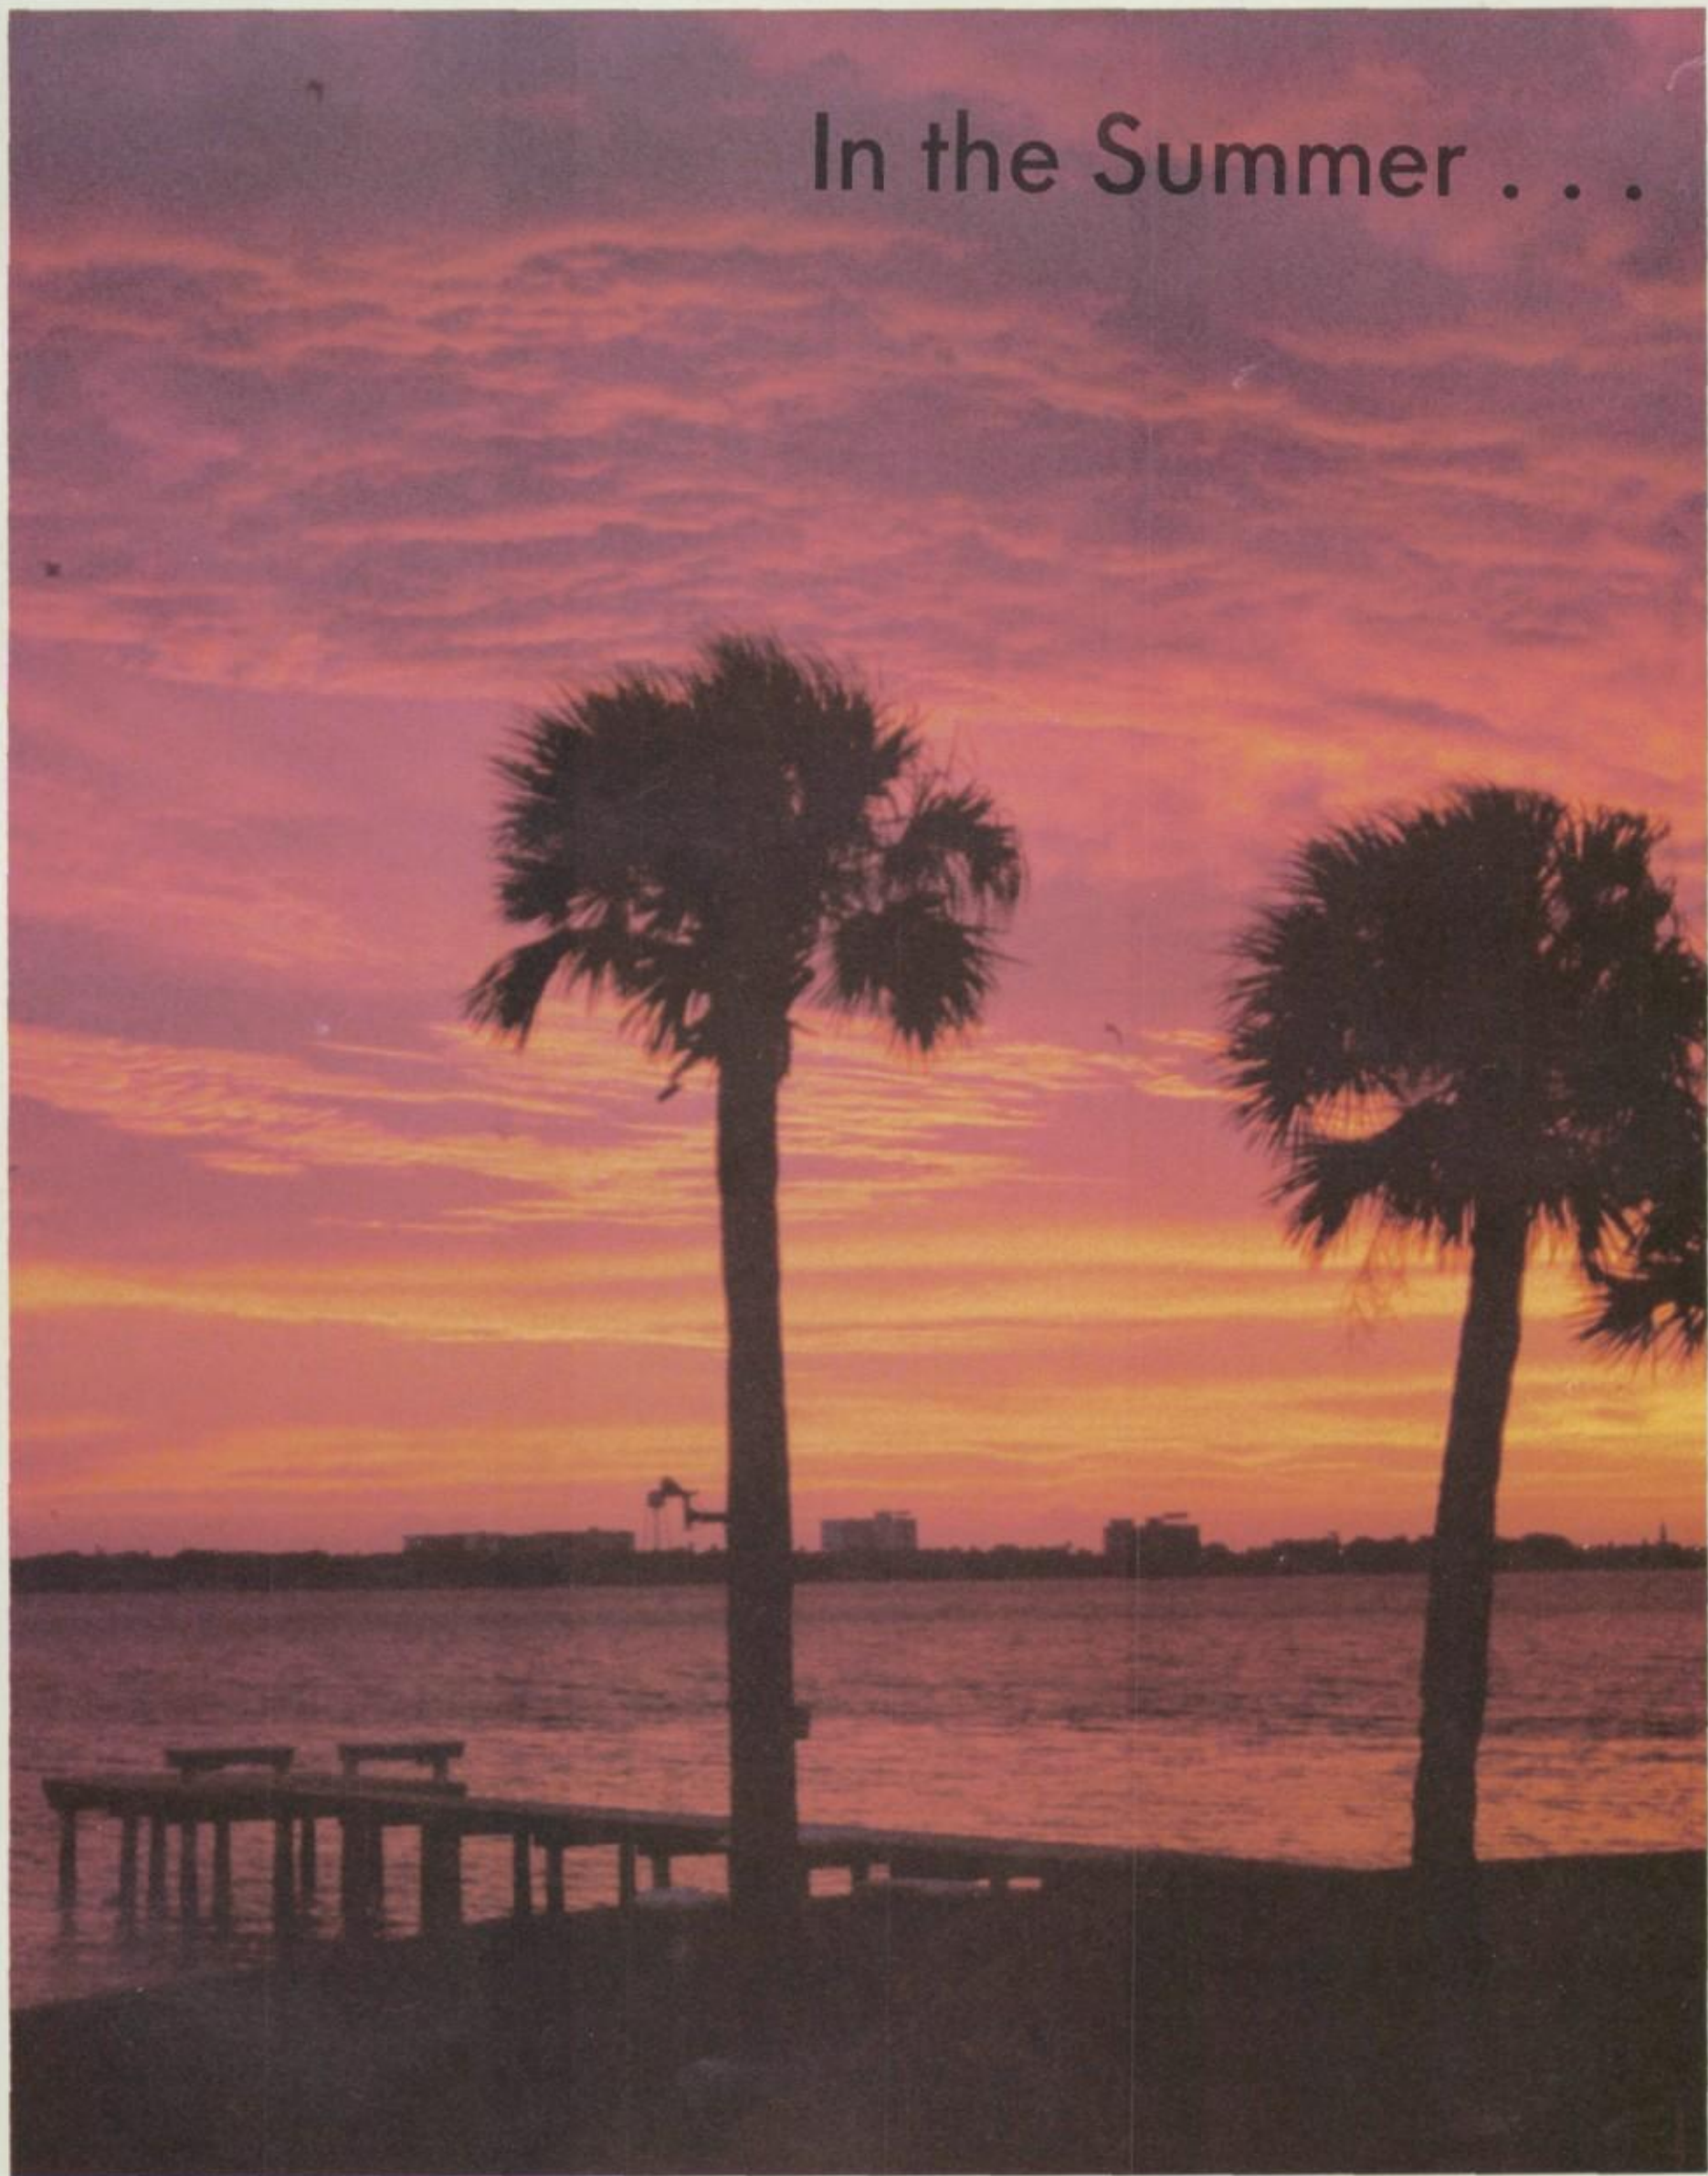

"Let's cruise to the beach!" "Check the waves?" Many expressions like these are heard daily around the Lopez campus. But when surf's up all the Lopez surfers, amateur as well as pro, grab baggies and board and hit the beach. It makes no difference to them whether it's Monday or Saturday, they're all gonna get tubed!

Class Song: Time In a Bottle

by Jim Croce

If I could save time in a bottle,
the first thing that I'd like to do,
is to save everyday till eternity
passes away just to spend them with
you.

If I could make days last forever,
if words could make wishes come true,
I'd save everyday like a treasure
and then, again, I would spend them
with you.

But there never seems to be enough
time to do the things you want to
do once you find them.

I looked around enough to know that
you're the one I want to go through time
with.

If I had a book just for wishes,
and dreams that had never come true,
the box would be empty except
for the memory of how they were answered
by you.

But there never seems to be enough
time to do the things you want to
do once you find them.

I looked around enough to know that
you're the one I want to go through
time with.

In Closing . . .

The future holds the promise

That we will go far

and within each one of us lies
a brand new star

For now if we help each other,
our friends will always be
there

through foul and
fair weather, they
will always care

The year has ended, but we
have just begun

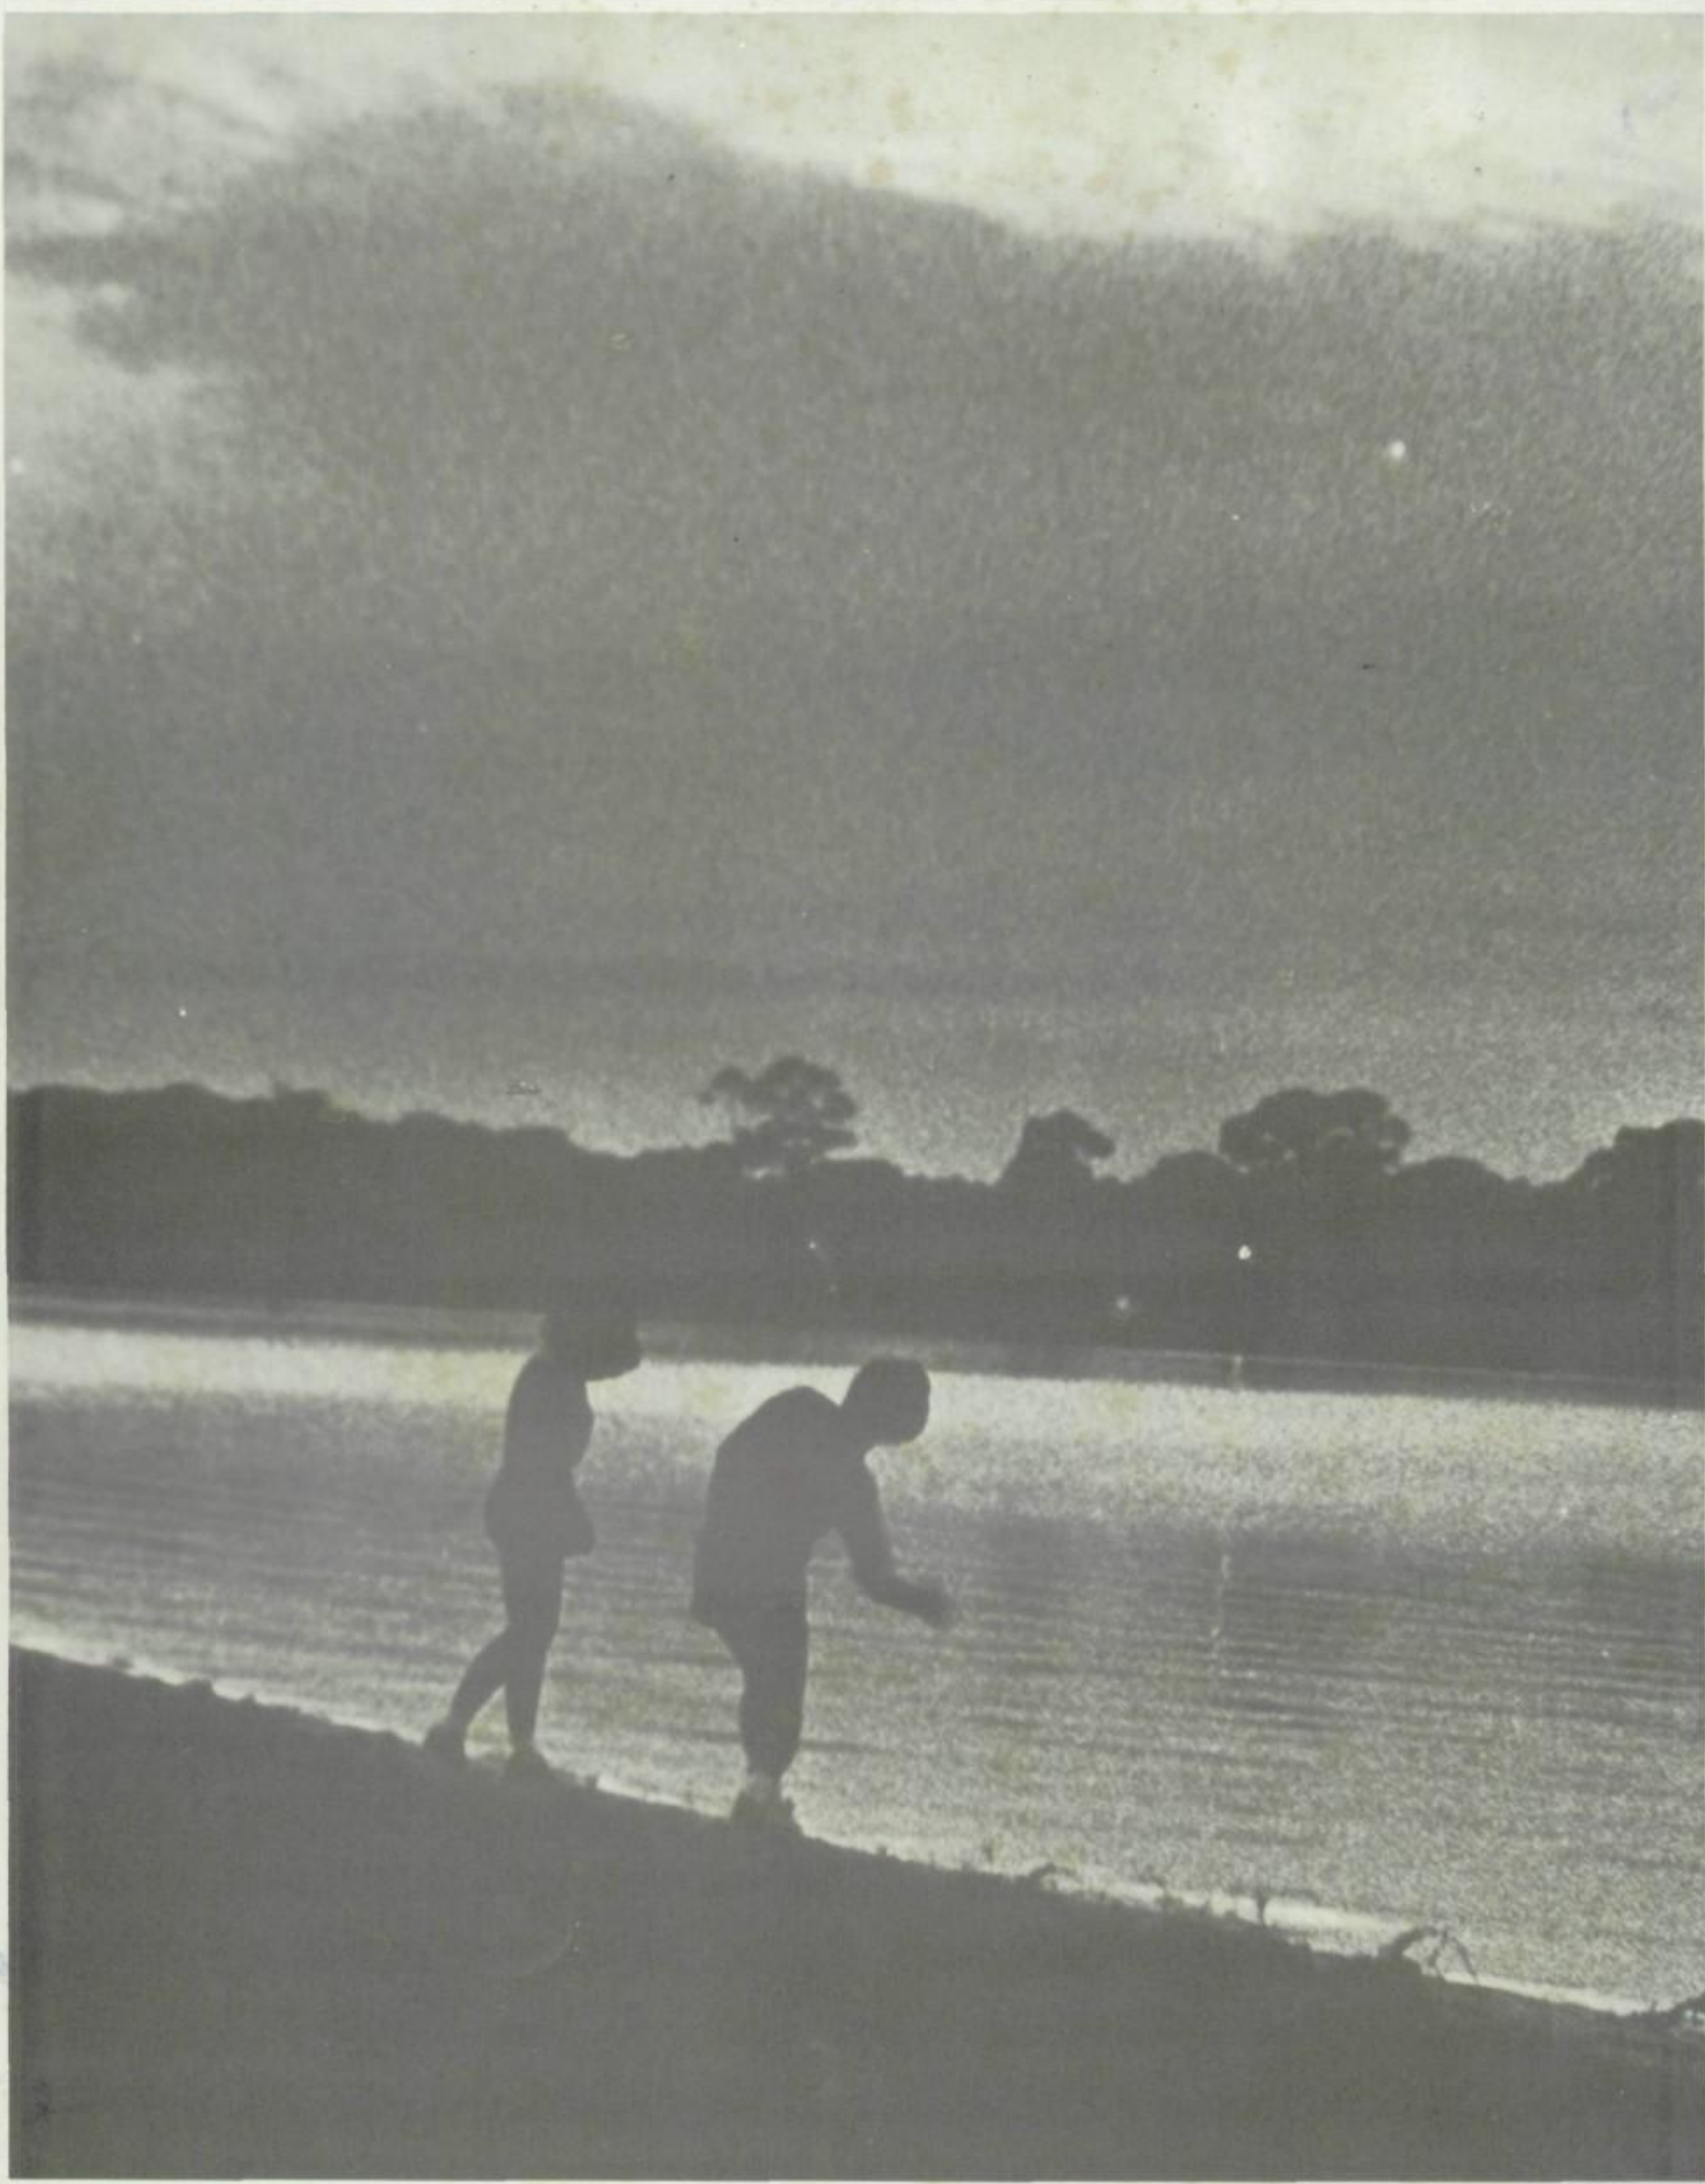

and we will carry on,
for we are

Children of the Sun.

Mrs. Liorza,
 this been having
 really great of Spanish.
 you for 2 yrs. of 5 years.
 you've taught me alot.
 Thank! Sorry if I've caused too
 much trouble in your class!
 Have a great summer! See ya,
 next school year!
 Love
 Nikki

Señora Liorza,
 it has been a
 pleasure having
 you to teach
 me Español. You
 are a good teacher
 with a lot of
 spunk even though
 you only 4'11".
 Have a nice summer
 Love
 Lori

Mrs Liorza,
 I Think I'm
 in love with
 YOU

Señora Leorza,
You are one
teacher that I will
always remember. You are
someone who has taught me
a great deal and I'd like
to thank you for that. It has been
a pleasure having you as a
friend.
Gracias!
Love, Juan
Dylawski

Mrs. Leorza,
I have really
enjoyed taking
Spanish with
my teacher.
I could take
year, but I
won't permit
you have

up one
be

Thank you for
putting up with me
Love,
Jody

Señora
Leorza,
It was really
great having
you as my Span.
teacher. Your
class was about
my favorite.
It's too bad my
grades went
down last 9 wks;
I think that was
about the time John
Groeschner started
sitting in front of me. Love, Rosella.

Señora Leorza,
It's been really fun having you
as a Span. II teacher. I wish I
was going to have you again
next year. Sorry we were so late
for the Span. dinner at St.
Augustine. (that was awful!)
Your class is always a lot of laughs.
I've learned a lot (he-he-he)
Too bad John Groeschner had to
corrupt right at the end of the
year. OK, well.
Love,
Naseema

Señora Leorza, It has
been fun having you for
my Spanish II teacher. I have
learned a lot. Thank you for
being so patient with Tepper
and I. Have a great summer!

Señora Leorza,
I'm glad you were in my Spanish class
this year. It was a lot of fun. Having a
Spanish teacher was new to
me and I learned a lot.
Thank,
Love,
"Juan Green"
